SUMMARY

Frontend Developer specializing in React, Next.js, and Tailwind CSS, with a track record of building clean, scalable, and high-performance web applications. Experienced in Agile environments, shipping features that improved release speed by 20% and reduced UI issues by 30%. Skilled in API integration, responsive design, and collaborative development.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, Python, Java
- **Frontend :** React, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **IDEs:** VS Code, IntelliJ

WORK EXPERIENCE

Awwaltech Pvt. Ltd

Jul 2025 – Oct 2025

Frontend Developer Intern - Noida (Remote)

- Delivered multiple React features in a 5-member Agile team, improving release speed by ~20%.
- Resolved numerous UI bugs across devices, significantly improving stability and user experience.
- Contributed to sprint planning, daily stand-ups, code reviews, and Git workflows.
- Actively resolved merge conflicts and ensured consistent UI across all breakpoints.

PROJECTS

JobLog – Job Application Tracker – ([GitHub](#) / [Live](#))

- Built a scalable job-application tracking platform using Next.js, TypeScript, and Tailwind CSS, supporting search by company and position, status-based filtering, and priority-based favourites.
- Implemented strongly typed data models, dynamic forms with React Hook Form, and state-driven UI logic for job status transitions, ensuring data consistency and future backend integration.

Customer Relationship Management System – ([GitHub](#) / [Live](#))

- Built a full-stack CRM using PHP, JavaScript, and Bootstrap with modular REST APIs, JWT authentication, role-based access and secure multi-admin data isolation.
- Developed reusable front-end components using PHP to accelerate development and ensure scalable UI design.

Personal Portfolio – ([GitHub](#) / [Live](#))

- Built a high-performance, fully responsive portfolio website using Next.js and Tailwind, featuring dark/light mode, clean UI, and SEO optimizations.
- Optimized performance and deployment on Vercel, achieving 90+ Lighthouse scores for fast global loading and enhanced user experience.
